## SMART SOLUTIONS FOR THE LABELING INDUSTRY

### AUTOMATIC LABEL COUNTER / SMALL REEL TO REEL

Automatic Label Counter Series allows to count the labels on a roll, to rewind and unwind the labels on one machine, to rewind the labels onto different core sizes, to rewind small rolls of labels from a larger one and also to rewind small rolls with a preset number of labels from a larger roll. This last feature is possible thanks to the setting of the preset labels' number through the electronic counter. Once the preset number of labels will be reached, the label counter will stop by uttering an acoustic signal. Both turrets of the label counter are motorized and it is possible to adjust the speed of rotation on the rewinder only while the unwinder has an automatic self-adjustment speed.

Automatic Label Counter Series can handle labels up to 127mm wide and it can rewind and unwind rolls of labels with diameter up to 300mm. It has a speed of 120 rpm and it is possible to choose between two different types of core holder: the adjustable core holder from 40mm up to 118mm or the core holder of 3" (76mm). Automatic Label Counter Series is available in many different versions and every model is marked by its own code. Through the table, it is possible to select the version better fitting your needs. The Automatic Label Counter turns in one direction only, from left to right. From the unwinder to the rewinder.

The "CLM" has the same features of the "CE" with the option to stop when the sensor detects a missing label.

Configuration table - Example CE - 2 - 1 - 1

	MODULE	MODEL	UNWINDER CORE HOLDER	REWINDER CORE HOLDER
	<b>CE</b> Label Counter <i>(min. gap 2mm; min. label width 2mm)</i>	<b>1</b> Roll Diameter 250mm  Label Width 127mm	<b>1</b> 40 - 118 mm	<b>1</b> 40 - 118 mm
	<b>CLM</b> Label Counter with missing label <i>(min. gap 2mm; min. label width 2mm)</i>	<b>2</b> Roll Diameter 300mm  Label Width 127mm	<b>4</b> 3" Fixed	<b>4</b> 3" Fixed
	<b>CSR</b> Small reel to reel
